312 To Jane Station

In conjunction with the St. Clair West track reconstruction project, beginning Sunday, July 31, elevator construction work at St Clair Station will require the temporary closure of the streetcar loop located on the upper level. During construction, the **512 ST CLAIR** route will be split into two parts, as follows:

-  **512 ST CLAIR** streetcars will run between Gunns Loop (Keele Street) and St. Clair West Station.
-  **512 ST CLAIR** replacement buses will run between St. Clair West Station and St. Clair Station, entering the lower level bus terminal via Avoca Avenue and Pleasant Boulevard.
-  **312 ST CLAIR** all night buses will not enter St. Clair West Station. Buses will enter St. Clair Station via Avoca Avenue and Pleasant Boulevard into the lower level bus platform.

512 ST CLAIR buses and streetcars will be timed to connect at St Clair West Station. Service will be provided every three to four minutes during the peak periods, and every five to ten minutes at all other times. Streetcars are scheduled to return by mid-November 2005.

Construction time lines and route diversions are subject to change due to weather conditions or any other unforeseen events.
