## Temporary bus service during track repairs Effective April 4, 2007

Temporary changes have been made to the 511 BATHURST and 509 HARBOURFRONT routes due to emergency track repairs on Fleet Street - these changes may continue up to 4 - 6 weeks.

- **511 BATHURST** streetcars are operating between Bathurst Station and Union Station, via Bathurst Street and Queen's Quay.
- **509 HARBOURFRONT** replacement buses are operating between Queens Quay/Spadina and Exhibition. Buses operate via Bathurst St., Lake Shore Blvd., Fort York Blvd. and Fleet St. in both directions.

Customers travelling from Bathurst Station to Exhibition should transfer between streetcars and buses at Queens Quay and Bathurst Street. Customers travelling between Union Station and Exhibition can take any streetcar from Union Station and transfer to a bus at Queens Quay and Spadina Avenue.

Customers who normally use the streetcar stops on Fleet Street can board a 509 HARBOURFRONT bus on Lake Shore Boulevard and transfer to a streetcar; or can walk to Bathurst Street and board a 511 BATHURST streetcar to travel north to Bathurst Station or east to Union Station.

There is no change to the 510 SPADINA streetcar route, which continues to operate between Spadina Station and Union Station, or to the 310 BATHURST overnight bus route, which continues to operate to Exhibition.

Construction time lines and route diversions are subject to change due to weather conditions or any other unforeseen events.
