Subway/RT Strip Maps

All TTC Surface routes (except route 99) connect with the Subway/RT system. Specific connections for all routes and branches of routes are shown on the Subway/RT Strip Maps to the right and below.

A pink background indicates a transfer is required to cross between Subway/RT and these routes.

A purple background indicates a GTA PASS or additional fare is required to cross between Subway/RT and these routes.

Map Features

Transit Parking
Transit Parking with Passenger Pick-up and Drop-off
Places of Interest
Pacific Western Airport Express Bus Stop
Arrows indicate the direction of travel around a loop.
Highlight notes with arrows indicate midday routing changes.
Via Rail Connection

Major Connection Point
for two or more transit companies
Logos indicate which transit companies serve the Connection Point boxes in the take indicate route numbers serving the Connection Point.

How To Read Bus Route Numbers and Notes

A '+' indicates that all branches run along that portion of the route. For example, 87+ indicates the presence of all branches: the 87, the 87A, the 87B.

A ':' separates each branch in a route box where only some of the branches follow that portion of the route. For example, 87.A indicates that the 87 and the 87A are present; the 87B is not. Alternatively, 87A,B indicates the presence of the 87A and the 87B, but not the 87. A rectangular box indicates the end point of a route or a branch of a route.

A pointed box is angled to show the direction of travel.

A yellow rectangular box indicates the end point of an express route or the end point of an express branch of a route. Note that route lines are not shown for express branches on regular routes.

A yellow pointed box shows the direction of travel on premium express routes and on route 91.
